Emad: Daddy, look at those big fans!

Father: They are actually wind turbines.

Emad: Wind turbines?

Father: Yes, wind turbines are used to produce electricity from wind power.

Emad: I know electricity can be produced from water and sunlight. How might it be generated from wind?

Father: Well, a wind turbine works the opposite of a fan. Instead of using electricity to make wind, a turbine uses wind to make electricity. It is a type of clean energy.

Emad: These wind turbines remind me of what I read about using wind power in Yazd's buildings.

Father: You mean wind towers?

Emad: Yes, they are natural air cooling systems and can be used instead of electrical air conditioners.

A dictionary is one of the most important tools that helps you get **information** about words and use them correctly. You should know how to use a dictionary effectively. The words in a dictionary have been arranged in alphabetical **order**, so it will be easy to access them. Some words have more than one meaning, but how do we decide which **definition** to use? First, decide how the word is used. Second, read all meanings of the word given to you. Third, **imagine** a blank space in the sentence where the word appears and finally, replace the correct word into that sentence. If the sentence is still alright, you have the correct **choice**. The more you practice, the more you get skillful.
